MICHAEL ANGELO GERTOS

JUNIOR SOFTWARE DEVELOPER • IT SPECIALIST • FULL-STACK DEVELOPER

Kalilangan, Bukidnon, Philippines • 09067224273 • michaelangelogertos123@gmail.com • github.com/kiyoshigertos

PROFESSIONAL SUMMARY

Information Technology student and aspiring software developer with a passion for building practical technology solutions that make work easier, faster, and more sustainable. Experienced in cross-platform development with Flutter, Python systems, database design, and hands-on IT diagnostics. Proven ability to deliver real-world client systems, troubleshoot hardware/software faults, and collaborate effectively under pressure.

TECHNICAL SKILLS

Programming & Mobile:	Python, Dart, Flutter Framework
Databases:	MySQL, Microsoft Access
Tools & Environments:	Git, GitHub, Visual Studio Code, Antigravity, Cursor
IT & Systems:	Networking, Hardware Troubleshooting, Software Troubleshooting, Computer Repair, Prompt Engineering
Currently Learning:	Advanced Flutter Architecture, Modern Application Development

EXPERIENCE & CLIENT PROJECTS

Freelance Software Developer • SmartPOS Client Deployments

Client Locations: Jamelo Store, Hanmae's Store, MJMK Convenience Store

- Architected and deployed SmartPOS, a multi-device point-of-sale and inventory management system.
- Engineered responsive interfaces supporting smartphones, tablets, and desktop computers.
- Implemented sales tracking, product catalog indexing, and daily operational summary tools for store owners.

Assistant Technician • Harvey's Electronic and Repair Shop and Services

Kalilangan, Bukidnon, Philippines | September 2023 – February 2024

- Conducted client intake interviews to diagnose device issues and identify root causes.
- Performed hardware and software diagnostics, component servicing, and system maintenance using repair tools.
- Successfully repaired and recovered severely virus-infected laptops and restored operating integrity.

FEATURED PROJECTS

ELARA AI – AI Personal Assistant Project (Reverse-Psychology Branding: *'Don't let ELARA fool you. Let ELARA solve you.'*)

- Implemented core conversational reasoning and structured prompt pipelines; architecting planned offline and student assistance workflows.

Smart Bin – IoT & Smart Waste Management Concept

- Engineered IoT waste monitoring concept aimed at automated fill-level alerts and environmental sustainability.

Space Dodger – 2D Game Project

- Built arcade collision handling, player coordinate physics, and interactive game loop logic.

EDUCATION & LEADERSHIP

Bachelor of Science in Information Technology (Pursuing: 2024 – Present)

Torres Capitol College, Inc. (formerly Philippine Countryville College) • Leadership: PIO, IT Department

- **3x Consecutive Dean's Lister:** AY 24-25 1st Sem (1.42 GWA) • AY 24-25 2nd Sem (1.56 GWA) • AY 25-26 1st Sem (1.72 GWA)
- **Academic Recognitions:** Latin Award Candidate, Best Programmer Award, Capstone of the Year
- **Secondary Education:** Academic Excellence with Honors (90% Average Grade) – DepEd Kalilangan National High School

VERIFIED CERTIFICATIONS & HONORS

- **TESDA National Certificate II (CSS NC II):** Computer Systems Servicing (Cert No: 24101302001324 • Valid 2024–2029)
- **Dean's List Certificate of Recognition:** Torres Capitol College, Inc. (March 2026 • 1.72 GWA)
- **Dean's List Certificates:** Philippine Countryville College, Inc. (1.42 & 1.56 GWA Distinctions)
- **DICT Seminar-Workshop Certificate:** Digital Danger Zone – Cybersecurity & Digital Defense (DICT Region 10)
- **Academic Defense Certificate:** BSIT Gameplay Defense – Interactive Systems Presentation

- **Robotics Championship – Champion (1st Place):** Institutional Automation Challenge (2025)
- **Hackathon Championship – 1st Place:** Rapid Software Engineering Hackathon (2024)
- **1st Place – Sayaw Arnis/Kali:** Cultural & Martial Arts Competition (2025)
- **DEVCON Bits of Light Roadshow:** Frontend Forge Workshop • DEVCON Bukidnon & DICT Region X (July 2026)
